**Dear friends!**

We are gathered today to honor victims of totalitarianism and aggression. In the past, millions of people were victims of the Molotov-Ribbentrop pact. In nowadays, we are witnesses of more and more victims during Russian aggression against Ukraine. But not only in Ukraine. Belarus is occupied by Russian troops and many other European countries are under Rashists threat.

Eurasian Russia continues its imperial colonial policy of capturing peoples, especially its neighbors, trying to turn them into its slaves.

**Putin stop the war!**

It is a pity, that Lukashenka regime is on side of the Russian aggression. Moreover, criminal Lukashenka carries out a total suppression of Belarusians - more than 15 hundred of the best Belarusian sons and daughters are in prisons after Revolution 2020.

**Freedom to political prisoners in Belarus.**

Many Belarussians these days are fighting shoulder to shoulder with Ukrainians against Russian aggressor. We, free Belarusians, like many people of the world, express our unconditional support for Ukraine and wish a VICTORY to Ukraine.

**Glory to Ukraine! Слава Україні!**

**Long live free Belarus! Жыве Беларусь!**
